

WILDLIFE WEDNESDAYS

10 AM—11AM at Little Miami Conservancy Visitor Center
209 Rail Road Avenue, Loveland, OH 45150

April 12th: PollINATION

Did you know that bees and butterflies aren't the only pollinators? There are actually 200,000 pollinators worldwide! Join the Clermont County Park District and the Little Miami Conservancy as we discover different pollinators and their important role in our environment. Play a game and learn the secret life of pollinators and how they help us every day. Decorate a pot and plant a Native Wildflower to take home!

May 10th: Spring Migration

Ever wonder where the birds go and how they get there? Take a swan dive with Clermont County Park District and Little Miami Conservancy as we uncover the mysteries of flight and migration patterns. Learn why some birds stay and some birds go and how they fly so high during our science experiments! Help construct an Eagle's nest for the Little Miami Conservancy!

June 14th: Rocking out with Fossils

Did you know that Cincinnati is famous for their fossils? Cincinnati's fossils are so Prehistoric, the animals that were found in this area are older than the dinosaurs! Learn the names of our Ordovician Fossils and search for them in O'Bannon Creek. You will even get to take some home! Join in on a fun game after the fossil hunt in the creek!

July 12th: Scaly or Slimy?

Snakes are just misunderstood and frogs are often mistaken for reptiles! Meet Clermont County Park District's scaly friends up close! Learn what makes a reptile a reptile and what makes an amphibian an amphibian! Play a game with your friends to discover all the cool facts that make them unique and loveable!

August 9th: Water, Water, everywhere?

Become a junior scientist while investigating our important natural resource - water. Junior scientists will learn how the water cycle works through an interactive game. Help Clermont County Park naturalists test water quality by using different methods of water quality testing that real-life scientists use!

September 13th: Native Americans on the Ohio

Native Americans play an important role in our nation's history. Learn how Native Americans lived in the 1700's before the Pioneers and Cincinnati was settled. Step back in time and learn how Native Americans worked, played and lived in the great forests of Southeast Ohio. Program includes interactive games, hike and activities that focus on the tribes of Southeast Ohio.

October 11th: Above or beneath the snow?

Days are getting shorter, nights are getting longer, and weather is getting cooler. Learn how nature adapts to these changes, who hibernates and who braves the cold. Identify trees as you take a colorful, guided hike with your favorite Naturalist, say goodbye to our local wildlife before they scurry off for the winter. Join in on a fun activity and make a beautiful, fall craft!
